Allowable Subject Matter

Claims 16-18, 20-28, 30, 36-45, 47 and 49-55 are allowed over the prior art. The following is an examiner's statement of reasons for allowance:

In viewing the Remarks filed on 5/16/08, the examiner found out that applicant's argument With respect to the new matter rejection is persuasive. Applicant argued that Fig 2A provides coupling pads 32 and 34 which are examples of conduct structure for contactlessly receiving signals and that power plane 70 and ground plane 72 shield DUT 18 from electrical interference.

In viewing the Remarks filed on 9/28/07, the examiner found out that applicant's argument With respect to the rejection under 35 U.S.C. 103 (a) as being unpatentable over Slupsky ('202) in view of Rostoker ('163) is persuasive. Applicant argued that the claims 16 and 27 recite not the mere use of a shielding plane but also a specific location for the shielding plane and it would be impossible to run Rostoker ('163)'s traces between Slupsky ('202)'s I/O cell 14 and circuit 12 (see page 1, last five lines).

During further research, the examiner found out that the prior art in the record, taken alone or in combination, does not teach or suggest an electrically conductive shielding plane disposed between at least part of ones of the conductive structures and at least part of said functional circuitry of the dies recited in the claims 16 and 27. Claims 17-18, 20-26, 47, 50-51 and 28, 30, 36-45, 49 and 52-55 are dependent on the claims 16 and 27 respectively and allowed accordingly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2829

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
